

### Send and receive money in multiple currencies

Get your own local and international account numbers to receive money in multiple currencies, just like a bank. All your funds are safeguarded with Tier-1 banks in Singapore and will always be available to you.

### Make fast and transparent international payments

Send and receive international payments in 30+ currencies with low, transparent fees. Enjoy market-leading FX rates, up to 3x cheaper than banks. No hidden fees

### Issue unlimited virtual cards to your team instantly

Issue unlimited virtual cards to each employee, or assign them for different use-case and merchants. Say goodbye to sharing cards or one-time passwords, and hello to faster and more secure purchasing

### Get 1% cashback on your marketing and SaaS spends

Get cashback on your operating expenses on platforms like Google ads, Facebook ads, Hubspot, AWS, Google Cloud Platform and more.

### It's all integrated with your accounting software

Close your books twice as fast, sync all your transactions with major accounting software.
